### Summary

---

Engineering graduate with 6+ months of experience in Software Development, IT, and service industries. Experience in JavaScript, React, and MongoDB. Strong background in Front-End Development with modern UI frameworks. Quick learner with the ability to adapt to new technologies and tools.

### Skills

---

**Programming and Query Languages:** HTML, CSS, JavaScript, Data Structures And Algorithms, Node.js, MongoDB, Python, Express.js

**Frameworks and Libraries:** React.js, Redux, Tailwind CSS

**Soft Skills:** Goal-Oriented, Problem-Solving, Communication Skills, Self-Motivated, Team Collaboration

### Education

---

**Bachelor of Computer Applications.**

**Graduated: 2026**

*iLEAD – Institute of Leadership, Entrepreneurship and Development, Kolkata, India*

*CGPA: 8.6 / 10*

### Experience

---

**Software Developer Intern**

**May 2025 – July 2025**

*Bluestock Fintech – Online Doctor Appointment System*

- Engineered a responsive web application enabling end-to-end appointment workflows, including doctor discovery, consultation scheduling, and record management.
- Implemented secure, role-based authentication with OAuth, ensuring authorized access for Patients, Doctors, and Admins.
- Deployed the application on Netlify using mobile-first principles, boosting page rendering speed and ensuring stable production accessibility.

### Projects

---

**Food Delivery Application**

**March 2025**

- Developed a food delivery platform supporting complete ordering workflows as part of a Frontend Development certification program.
- Integrated secure user authentication with email/password login to safeguard user profiles and features.
- Outlined dynamic product listing functionality, enabling ranked visibility across top categories and most-viewed items.
- Enforced route guard mechanisms to restrict create, update, and delete operations to authorized users.

**Personal Portfolio**

**Feb – Mar 2025**

- Built a portfolio site with a minimal layout to showcase technical skills and professional background.
- Applied responsive styling methods to deliver a smooth browsing experience across varied screen dimensions.
- Structured content layout to clearly separate work samples, skill sets, and contact information.
- Published the site via modern hosting solutions, ensuring public access and simplified upkeep.

### Awards & Certifications

---

- Web Development and Generative AI Certification – My-Captain, with hands-on knowledge of modern front-end technologies and AI fundamentals.
- Received the Outstanding Effort Award (2024) from the client for consistent performance, problem-solving skills, and high-quality project delivery.
